* waste reception centers which welcome professionals.

practical informations recall of the instruction

the guidebook of the yellow container

✓ Individual containers must be presented to the point of regrouping the nearest of your place of residence the day before the day of collection. On no account, individual containers must stay permanently on the regrouping point, which is not a storage place.

✓ Household refuses must be thrown in bags in the rubbish bin (green, blue or garnet-colored) provided and not on the floor on the public highway. It is forbidden to put the following in the waste bin: rubbles, vegetables, glass and recyclable domestic packagings (cardboard boxes, plastic bottles and aluminium can).

✓ Rubbles and vegetables must be brought to the waste reception center the nearest of your place of residence to be recycled there.

✓ The phytosanitary products packagings of the professionals are not collected and are not accepted in waste reception centers.

They are subjected to a special collection twice a year by Establishments PERIS-MONTARIOL, MAGNE, and AUDECOOP. Only this kind of packaging issued from the private individuals in quantities lower than 25 liters is accepted in waste reception centers.

✓ The glass must not be thrown in the individual containers but in the collective containers for voluntary deposits provided. With this gesture of sorting, you will help the League against the Cancer to whom we put back an annual grant.

✓ Please verify the state of the label on which is indicated your address, affixed behind your individual containers. This label allows us to find your container in case of loss or of theft but also to make you benefit from personalized advice during its use. Is this label damaged or unreadable? Then do not hesitate to call the SICTOM which will send you a new one. 04 67 98 45 83.

✓ Can only be thrown in it :

- plastic cans and bottles,
- tins,
- aerosols,
- drink cans,
- food bricks,
- cardboard packagings,
- papers, newspapers, magazines.

✓ Errors to be avoided:

- vegetables, plants,
- flowerpots,
- polystyrene packagings,
- plastic bags,
- glass bottles,
- disposable nappies.

✓ The plastic cans of fuels for mobile heaters are recyclable ; you are allowed to throw this domestic packaging in your yellow container or in waste reception centers.

✓ The recyclable domestic packagings must be cast higgledy-piggledy in the yellow container and on no account in plastic bags.
